Company Profile and Learning Experience

Company Profile (Professional of the Government Undertaking):

Assistant Engineer Lower camp at Bodi Panchayat , Theni District, Tamilnadu is incharge of water treatment plant for the supply of treated drinking water for Theni district . There are 3 turbines to genenerate 120 MW power in the hydroelectric power station it has to lower camp. In addition to that 2 mini power station for that to generate 4MW power.

As such lower camp project near Gudalur of theni District will certainly remain as an important project site for this students to learn the aspects of hydroelectric power station and water treatment plants.

24/7

NB:

Lower Camp Hydro electric power station comes down under Govt. of Tamil nadu. Request has been sent to Exe. Engineer TNPD and govt. his permission for industrial visit by our students.

Respected sir,

Greetings to you.

We feel glad to introduce ourselves as a popular institution rendering engineering education at Trichy.

We will be thankful if you could kindly permit our students to visit Vaigai Dam Project on 31.08.17.

We have interest in visiting the treatment plant, infiltration gallery and the dam site.

In all about 69 civil engineering students and 4 faculty members will visit the project site on 31.08.17.

Kindly permit us to have a visit to your project site and we shall be thankful if you could send us a line of reply approving our proposal.

with regards

Truly yours

Company Profile and Learning Experience

Company Profile:

Vaigai Dam was inaugurated on 21 January 1959 by Tamil Nadu chief Minister Mr. K .Kamaraj. Vaigai Dam measures 111 ft in height and can store water up to 71 ft, with a total storage capacity of 6,143 mcft. Vaigai Dam is maintained by Water Resources Department which in turn managed by the Tamil Nadu Public Works Department. Vaigai Hydroelectric Power Plant was design capacity of 6 MW. It has 2 units of 3 MW each. Students learn about dam structure, Infiltration Gallery, Treated of water using for Drinking purposes, Working process of turbine used in hydroelectric Power Generation.
