## Company Profile and Learning Experience

### VARMA CONSTRUCTION PVT LIMITED SALEM

Varma construction and co is a general contractor and construction company. Company has successfully completed many projects under the name of varma construction and co. The company was started mainly to supply the construction industry with construction service. The company soon established a reputation of quality construction and handled many projects. The company has developed numerous luxury apartments & villas at prime location in Lonavala & Pune.

We specialize in Residential and commercial construction, with a particularly strong performance in concrete tilt-up. Our expertise spans a wide range—from pre-construction services to complete turn-key construction projects. Our goal is to provide a higher level of service than is found with any other company in the construction industry. We consistently bring superior craftsmanship to every project. Through our services we were much more equipped to assist our customers on most of their needs.

### Company Profile and Learning Experience

#### Water Treatment Plant – Vaigai Dam - Theni

The **Vaigai Dam** is built across the Vaigai River near Andipatti, in the Theni district of Tamil Nadu, southern India. It provides water for irrigation for the Madurai district and the Dindigul district as well as drinking water to Madurai and Andipatti. **Water treatment** is any process that improves the quality of water to make it more acceptable for a specific end-use. The end use may be drinking, industrial water supply, irrigation, river flow maintenance, water recreation or many other uses, including being safely returned to the environment. Water treatment removes contaminants and undesirable components, or reduces their concentration so that the water becomes fit for its desired end-use.

Through the principal,

Respected madam,

Sub: Requesting permission for Industrial visit – reg.

As a part of our curriculum, we are II year students of civil Engineering would like to go for an industrial visit to **ALIYAR DAM, POLLACHI** on 20/9/2018 (Thursday). So kindly request you to permit us for the same.

Thanking you,

Yours obediently,

### Company Profile and Learning Experience

#### Aliyar Dam Pollachi

The Aliyar Dam was constructed during 1959-1969 across the Aliyar river, mainly for irrigation purposes. Aliyar Dam was inaugurated on 2nd October, 1962 (Gandhi Jayanti day) by then Prime Minister of India Pandit Jawaharlal Nehru, K. Kamaraj, the CM of TN state presided over the function. The project was commissioned in September 2002 to generate Hydro Electric Power.

Aliyar Reservoir is a 6.48 km<sup>2</sup> (2.5 sq mi) reservoir located in Aliyar village near Pollachitown in Coimbatore District, Tamil Nadu, South India. The dam is located in the foothills of Valparai, in the Anaimalai Hills of the Western Ghats.<sup>[3]</sup> It is about 65 kilometres from Coimbatore. The dam offers some ideal getaways including a park, garden, aquarium, play area and a mini Theme-Park maintained by Tamil Nadu Fisheries Corporation for visitors' enjoyment. The scenery is beautiful, with mountains surrounding three quarters of the reservoir. This project consists of a series of dams interconnected by tunnels and canals for harnessing the waters of the Parambikulam, Aliyar, Sholiyar, Thunakadavu, Thekkadi and Palar rivers, flowing at various elevations, for irrigation and power generation. The scheme is an outstanding example of engineering skill. At present, the discharges are being let down through three sets of sluices/ canals, viz., Pollachi Canal, Vettaikaranpudur Canal and the river sluices. Under this scheme, the irrigation discharges let down through river sluices of the Aliyar Dam utilized for power generation in a power house at the toe of the dam. Being a micro hydel scheme, this project is subsidized by the Ministry of Non-conventional Energy Sources, Government of India.

## TO WHOM SOEVER IT MAY CONCERN

This is to certify that the attached list of names are bonafide students of this institution studying in **Second Year of Civil Engineering**. The total strength of 50 students along with 2 Faculty Members are willing to undergo industrial visit in your organization on 20<sup>th</sup> September 2018. So, I hereby request to approve our requisition and therefore enable our students to make this industrial visit as a pragmatic experience.
